Dear Property Owner:

Our firm is under contract to provide Professional Land Surveying Services to NJDEP Bureau of Coastal Engineering in connection with the above referenced land acquisition project.

In order to perform the land survey, our staff must gather field evidence, make measurements, and obtain data relative to existing physical characteristics and conditions of the lands being surveyed and sometimes on those lands that adjoin the project. It may be necessary for our land survey crew to enter upon your property for this purpose.

Be advised that there are several laws that provide specific authority for land surveyors to enter property for the purpose of making surveys. This letter is being provided to you as written notice that members of this office may be on your property during the period between April 21, 2014 and May 16, 2014.

Your cooperation in this success of this engagement is important to us. We would greatly appreciate you loaning to us copies of any prior surveys or deed documents that you may have in your possession that would assist in the completion of this project. Please call me at this office to advise if you have any such documents.

If you have any questions concerning this project, please call Adam Grant, who can be reached by calling 856-228-2200. While the work is being performed, we will make every effort to cause as little inconvenience as possible.

Very truly yours,

*Margaret Kulik*

Margaret Kulik, PLS  
Vice President
